

A Wallace Fountain in Sevres

**Place du Theatre
Sevres 92310 FRANCE**

This Wallace Fountain stands in the center of the town at Place du Theatre and is a working fountain dispensing drinking water to the thirsty. The area of Sevres where the fountain is located was completely rebuilt in the early 1960s. Exactly when the fountain was installed at this location is unknown. It was recently painted in the tradition green color of the original fountains installed in Paris beginning in 1872.

If anyone has additional information about the history or origin of this fountain, please share it by contacting us at admin@wallacefountains.org.
