

Little is Known About the Wallace Fountain in Agen

22 Rue Grenouilla at Boulevard de la République
47000 Agen
FRANCE

According to Agen City Hall, this Wallace fountain was originally installed at its existing location. Historic photos of the fountain taken in 1985 and in 2000 were provided by the city archives. It seems little else is known about the history of this specific fountain and how it came to Agen. Foundry markings and details on the fountain indicate it was produced after 1971 when the production of the fountains was moved from the old Val d'Osne foundry to GHM foundry in Sommevoire, a commune in the Haute-Marne department.

If anyone has additional information about the history or origin of this fountain, please share it by contacting us at admin@wallacefountains.org.
