

# Wallace Fountain Adapted for Multiple Users

**In the Median Across from  
162 Avenue Charles de Gaulle  
92200 Neuilly-sur-Seine  
FRANCE**

Located in the pedestrian median near the Metro station, Pont de Neuilly, this Wallace Fountain has been modified with three spigots. Three people at a time can easily fill their water bottles, wash hands or splash water on a hot day. The spigots also save drinking water and prevent corrosion of the caryatids and upper half of the fountain.

If anyone has additional information about the history or origin of this fountain, please share it by contacting us at [admin@wallacefountains.org](mailto:admin@wallacefountains.org).
